

300 BLK 110gr Nosler[®] Varmageddon[®]

This Gorilla Ammunition 300 BLK load featuring the 110gr Nosler[®] Varmageddon[®] projectile is designed for rapid expansion and deadly effective fragmentation on varmints. Varmageddon[®] bullets are made with a lead-alloy core and feature a copper alloy jacket designed to withstand high velocities yet expand immediately upon impact. Varmageddon[®] bullets are manufactured using a highly efficient process, providing legendary Nosler[®] quality and accuracy at an economical price.

DEADLY EFFECTIVE FRAGMENTATION

The Gorilla Ammunition[®] 110gr Nosler[®] Varmageddon[®] offering is a top tier choice for putting down varmints. The Nosler[®] Varmageddon[®] has been designed to deliver a tremendous amount of energy transfer on small animals. Featuring the Varmint Jacket Wall designed to keep the projectile together until impact at any velocity. This cartridge provides superb performance for the serious varmint.

Each of these rounds is precision crafted and individually inspected to ensure they are free of any deformity. Gorilla Ammunition[®] has put in the work to create a cartridge that is seemingly impervious to the imbalance and erratic flight patterns found in lesser quality ammunition. These cartridges are designed, perfected, and manufactured for maximum performance in short range barreled rifles. The Gorilla Ammunition[®] products outperform every other 300 BLK ammunition on the market today.

THE ULTIMATE MATCH AMMUNITION

- Delivers a tremendous amount of energy transfer on small animals.
- Match grade primers and projectiles ensure insane accuracy and reliability
- Factory new military specification cosmetically improved brass cases
- Loads developed by expert ballisticians specifically for modern sporting rifles
- Precision ammunition manufactured with meticulous care and attention to detail.
- Unparalleled quality inspection of every round to ensure a top quality product
