

300 BLK 208gr Hornady® A-MAX™ Subsonic

This Gorilla Ammunition® 300 AAC BlackOut Subsonic featuring the 208gr Hornady® A-MAX™ projectile possesses great accuracy and extremely effective bullet expansion. Even at subsonic speeds, this product is a great choice for close range hunting engagements. It is much quieter than standard velocity ammunition but packs a serious punch down range. Whether you are hitting the woods for a hog hunt or heading to range for practice, you will want this Gorilla Ammunition® 208gr Hornady® A-MAX™ in your firearms magazine!

**UNLEASH SILENT
DEVASTATION**

Leveraging our experience in military contracting for subsonic ammunition, Gorilla Ammunition® is well equipped to dominate the market place with incredibly accurate and reliable subsonic ammunition. On staff Ballisticians with over 30 years of experience, 100s of firearms for testing, and a state-of-the-art ballistics lab make Gorilla Ammunition® the revered leader in subsonic ammunition technology.

Gorilla Ammunition®, as the subsonic ammunition experts, spends time developing the perfect load and sends thousands of projectiles down range to evaluate the results and there is no doubt that we got everything spot on with our 300 BLK 208gr Hornady® A-MAX™ Subsonic.

**THE ULTIMATE MATCH
