

**300 BLK 220gr Sierra® MatchKing® Subsonic**

This 300 BlackOut load featuring the 220gr Sierra® MatchKing® projectile is Gorilla Ammunition's flagship product. This product is super quiet when fired from a firearm outfitted with a sound suppressor and is an absolute joy to shoot. This silencer optimized product was developed to produce sub-MOA accuracy and terminal effects that are unparalleled in the ammunition industry. When compared to all other subsonic offerings in the market, the Gorilla Ammunition® product shines in every single performance metric!

**UNLEASH SUBSONIC DOMINATION**

Like all of Gorilla Ammunition's lineup, our 300 BlackOut 220gr Sierra® MatchKing® Subsonic is manufactured on state-of-the-art linear loading equipment and is held to the same stringent quality controls that has become one of the defining aspects of our brand.

Leveraging our experience in military contracting for subsonic ammunition, Gorilla Ammunition® is well equipped to dominate the market place with incredibly accurate and reliable subsonic ammunition. On-staff ballisticians with over 30 years of experience, 100s of firearms for testing, and a state-of-the-art ballistics lab come together to make Gorilla Ammunition® the revered leader in subsonic ammunition technology.

**THE ULTIMATE MATCH AMMUNITION**

- Gorilla Ammunition's Super Silent Flagship Product
- Match grade primers and projectiles ensure insane accuracy and reliability
- Factory new military specification cosmetically improved brass cases
- Loads developed by expert ballisticians specifically for modern sporting rifles
- Precision ammunition manufactured with meticulous care and attention to detail.
- Unparalleled quality inspection of every round to ensure a top quality product
